EXPERIENCE

RESOURCE DATA INC

Anchorage, Boise, Houston, Juneau

August 2011-Spring 2016

Drove the Bosie Branch's testing, test-writing effort on client and internal projects Including SQL scripting, UAT, test writing, .Net testing, and GIS testing.

Created a new opportunity for myself, and RDI, at a local energy client's GIS department, by taking an administrative role and expanding it to a full GIS analyst role to better serve the client's needs.

 Promoted to test manager on a local client's grocery MVVM project after creating written test solutions and managing a testing regression base for an agile team.

Helped build Boise's VMWare server farm.

Desktop support for development teams

EBAY STORE

Online

January 2003 to Spring 2016

Created, maintained, and supported templates and sales pages for my online eBay sales business using HTML, CSS; learning these skills from scratch, as a need to increase my sales marketing.
